LEGISLATIVE COUNSEL'S DIGEST

SB 358, as amended, Figueroa. Nursing: vocational nursing: psychiatric technicians.

(1) The Nursing Practice Act provides for the licensing and regulation of registered nurses by the Board of Registered Nursing. Under existing law, the authority for both this board and the executive officer terminates on July 1, 2004. Existing law provides that the board is composed of 3 public members and 3 registered nurses and one licensed physician. Under existing law, a \$5 biennial licensure renewal assessment is collected from licensees and deposited into the Registered Nurse Education Fund.

This bill would extend the sunset date of the board to January 1, 2009. The bill would change the composition of the board to 4 public members and 3 registered nurses, one of whom is an advanced practice nurse, as

defined. The bill would provide that, with certain exceptions, no other state agency, other than the board, may define or interpret the practice of nursing. The bill would increase the biennial licensure renewal assessment to \$10. The bill would require the board report to the Legislature and the State Department of Health Services by March 1, 2004, whether the national accreditation process could be substituted for board approval. The bill would delete obsolete references and make conforming changes.

(2) The Vocational Nursing Practice Act and the Psychiatric Technicians Law provide for the licensure and regulation of licensed vocational nurses and psychiatric technicians by the Board of Vocational Nursing and Psychiatric Technicians of the State of California. Under existing law, the authority for this board and its executive officer terminates on July 1, 2004. Existing law defines unprofessional conduct for vocational nurses and psychiatric technicians and authorizes the board to suspend or revoke an individual's license for unprofessional conduct.

This bill would extend the termination date applicable to the board and its executive officer to January 1, 2009. The bill would require both categories of licensees to report known or suspected violations of the act to the board. The bill would specify that a licensee who fails to report this information to the board may have his or her license suspended or revoked for unprofessional conduct. This bill would also require the employers of these licensees to report to the board any suspension or termination for cause of a licensee. The bill would subject employers who fail to make a report to an administrative fine.

(3) Existing law creates the Registered Nurse Education Program within the Health Professions Education Foundation. Under existing law and as a condition of being accepted into the program, the program requires registered nursing students to agree to serve in specified facilities or underserved areas. Existing law requires the Health Professions Education Foundation to solicit advice from the Board of Registered Nurses, the California Nurses Association, the Chancellor of the California Community Colleges, and the California Association of Hospitals and Health Systems when developing the program.

This bill would create the Vocational Nurse Education Program in the Health Professions Education Foundation. The bill would, as a condition of being accepted into the program, require vocational nursing students to agree to serve in specified facilities or underserved areas. The bill would create the Vocational Nurse Education Fund

which would be funded by a \$5 license renewal assessment for vocational nurses and would be collected by the board. The bill would require the Health Professions Education Foundation to solicit advice from the Board of Vocational Nursing and Psychiatric Technicians, the California Licensed Vocational Nurses' Association, the Chancellor of the California Community Colleges, and the California Association of Hospitals and Health Systems when developing the program.

18 2725. (a) In amending this section at the 1973–74 session, the
19 Legislature recognizes that nursing is a dynamic field, the practice
20 of which is continually evolving to include more sophisticated
21 patient care activities. It is the intent of the Legislature in
22 amending this section at the 1973–74 session to provide clear legal
23 authority for functions and procedures that have common
24 acceptance and usage. It is the legislative intent also to recognize
25 the existence of overlapping functions between physicians and
26 registered nurses and to permit additional sharing of functions
27 within organized health care systems that provide for
28 collaboration between physicians and registered nurses. These
29 organized health care systems include, but are not limited to,
30 health facilities licensed pursuant to Chapter 2 (commencing with
31 Section 1250) of Division 2 of the Health and Safety Code, clinics,
32 home health agencies, physicians' offices, and public or

35 means those functions, including basic health care, that help
36 people cope with difficulties in daily living that are associated with
37 their actual or potential health or illness problems or the treatment
38 thereof, and that require a substantial amount of scientific
39 knowledge or technical skill, including all of the following:

1 (1) Direct and indirect patient care services that ensure the
2 safety, comfort, personal hygiene, and protection of patients; and
3 the performance of disease prevention and restorative measures.

4 (2) Direct and indirect patient care services, including, but not
5 limited to, the administration of medications and therapeutic
6 agents, necessary to implement a treatment, disease prevention, or
7 rehabilitative regimen ordered by and within the scope of licensure
8 of a physician, dentist, podiatrist, or clinical psychologist, as
9 defined by Section 1316.5 of the Health and Safety Code.

10 (3) The performance of skin tests, immunization techniques,
11 and the withdrawal of human blood from veins and arteries.

12 (4) Observation of signs and symptoms of illness, reactions to
13 treatment, general behavior, or general physical condition, and (A)
14 determination of whether the signs, symptoms, reactions,
15 behavior, or general appearance exhibit abnormal characteristics,
16 and (B) implementation, based on observed abnormalities, of
17 appropriate reporting, or referral, or standardized procedures, or
18 changes in treatment regimen in accordance with standardized
19 procedures, or the initiation of emergency procedures.

21 either of the following:

22 (1) Policies and protocols developed by a health facility
23 licensed pursuant to Chapter 2 (commencing with Section 1250)
24 of Division 2 of the Health and Safety Code through collaboration
25 among administrators and health professionals including
26 physicians and nurses.

27 (2) Policies and protocols developed through collaboration
28 among administrators and health professionals, including
29 physicians and nurses, by an organized health care system which
30 is not a health facility licensed pursuant to Chapter 2 (commencing
31 with Section 1250) of Division 2 of the Health and Safety Code.

32 The policies and protocols shall be subject to any guidelines for
33 standardized procedures that the Division of Licensing of the
34 Medical Board of California and the Board of Registered Nursing
35 may jointly promulgate. If promulgated, the guidelines shall be
36 administered by the Board of Registered Nursing.

37 (d) Nothing in this section shall be construed to require
38 approval of standardized procedures by the Division of Licensing
39 of the Medical Board of California, or by the Board of Registered
40 Nursing.

(e) No state agency other than the board may define or interpret the practice of nursing for those licensed pursuant to the provisions of this chapter, or develop standardized procedures or protocols pursuant to this chapter, unless so authorized by this chapter, or specifically required under state or federal statute. “State agency” includes every state office, officer, department, division, bureau, board, authority, and commission.

1 *in subdivision (c) of Section 800 of the Business and Professions*
2 *Code, and shall not be subject to discovery in civil cases.*

3 *(c) For purposes of this section, “suspension or termination for*
4 *cause” is defined as suspension or termination from employment*
5 *for any of the following reasons:*

6 *(1) Use of controlled substances or alcohol to such an extent*
7 *that it impairs the licensee’s ability to safely practice as a*
8 *psychiatric technician.*

9 *(2) Unlawful sale of controlled substances or other*
10 *prescription items.*

11 *(3) Patient or client abuse, neglect, physical harm, or sexual*
12 *contact with a patient or client.*

13 *(4) Falsification of medical records.*

14 *(5) Gross negligence or incompetence.*

16 *employer.*

17 *(d) Failure of an employer to make a report required by this*
18 *section is punishable by an administrative fine not to exceed ten*
19 *thousand dollars (\$10,000) per violation.*

20 *(e) Pursuant to Section 43.8 of the Civil Code, no person shall*
21 *incur any civil penalty as a result of making any report required by*
22 *this chapter.*

23 *SEC. 21. Article 4 (commencing with Section 128475) is*
24 *added to Chapter 5 of Part 3 of Division 107 of the Health and*
25 *Safety Code, to read:*

26
27 *Article 4. Vocational Nurse Education Program*
28

29 *128475. (a) The Legislature hereby finds and declares that*
30 *an adequate supply of professional vocational nurses is critical to*
31 *assuring the health and well-being of the citizens of California,*
32 *particularly those who live in medically underserved areas, and*
33 *that changes in the health care system of this state have increased*
34 *the need for more highly skilled vocational nurses.*

35 *(b) The Legislature further finds and declares that in March*
36 *2002, the California Association of Health Facilities indicated*
37 *that there is a shortage of 3,500 vocational nurses in long-term*
38 *care facilities and estimates that 28,000 additional vocational*
39 *nurses will be needed in long-term care over the next 10 years, that*
40 *recently published reports indicate that vocational nurses now*

1 *comprise almost 30 percent of the nations total number of nurses*
2 *and that the national vacancy rate in hospitals was about 13*
3 *percent, and that according to the California Association of*
4 *Psychiatric Technicians, an additional 800 psychiatric*
5 *technicians are needed due to expanding health facilities.*

6 *(c) The Legislature further finds and declares that in vocational*
7 *nursing, as in other professions, certain populations are*
8 *underrepresented. The Legislature also finds and declares that it*
9 *is especially important that vocational nursing care be provided in*
10 *a way that is sensitive to the sociocultural variables that affect a*
11 *person's health. The Legislature recognizes that the financial*
12 *burden of attending a school of vocational nursing is considerable*
13 *and that persons from families lacking adequate financial*
14 *resources may need financial assistance to complete their studies.*

15 *(d) The Legislature further finds and declares that*
16 *approximately 54.1 percent of all Californians live in rural and*
17 *urban areas that have been designated underserved. The shortage*
18 *of vocational nurses in these areas makes it more difficult for those*
19 *citizens to obtain health care and more difficult to attract and*
20 *retain other health care professionals to those areas.*

21 *128480. It is the intent of the Legislature to accomplish the*
22 *following:*

23 *(a) Assure an adequate supply of appropriately trained*
24 *vocational nurses.*

25 *(b) Encourage persons from populations that are currently*
26 *underrepresented in the profession of vocational nursing to enter*
27 *that profession.*

28 *(c) Encourage vocational nurses to work in medically*
29 *underserved areas.*

30 *128485. There is hereby created the Vocational Nurse*
31 *Education Program within the Health Professions Education*
32 *Foundation. Persons participating in this program shall be*
33 *persons who agree in writing prior to completion of vocational*
34 *nursing school to serve in an eligible county health facility, an*
35 *eligible state-operated health facility, or a health manpower*
36 *shortage area, as designated by the director of the office. Persons*
37 *agreeing to serve in eligible county health facilities, eligible*
38 *state-operated health facilities, or health manpower shortage*
39 *areas may apply for scholarship or loan repayment. The*
40 *Vocational Nurse Education Program shall be administered in*

1 accordance with Article 1 (commencing with Section 128330),
2 except that all funds in the Vocational Nurse Education Fund shall
3 be used only for the purpose of promoting the education of
4 vocational nurses and related administrative costs. The Health
5 Professions Education Foundation shall make recommendations
6 to the director of the office concerning both of the following:

7 (a) A standard contractual agreement to be signed by the
8 director and any student who has received an award to work in an
9 eligible county health facility, an eligible state-operated health
10 facility, or in a health manpower shortage area that would require
11 a period of obligated professional service in the areas of California
12 designated by the Health Manpower Policy Commission as
13 deficient in primary care services. The obligated professional
14 service shall be in direct patient care. The agreement shall include
15 a clause entitling the state to recover the funds awarded plus the
16 maximum allowable interest for failure to begin or complete the
17 service obligation.

18 (b) Maximum allowable amounts for scholarships, educational
19 loans, and loan repayment programs in order to assure the most
20 effective use of these funds.

21 (c) Applicants may be persons licensed as vocational nurses
22 prior to entering a program granting a degree in nursing. Priority
23 shall be given to licensed vocational nurses seeking a degree in
24 nursing unless they could qualify under Section 128385.

25 128495. In developing this program, the Health Professions
26 Education Foundation shall solicit the advice of representatives of
27 the Board of Vocational Nurses and Psychiatric Technicians, the
28 California Licensed Vocational Nurses' Association and other
29 vocational nurse organizations, the Chancellor of the California
30 Community Colleges and other vocational schools, and the
31 California Association of Hospitals and Health Systems. The
32 foundation shall solicit the advice of representatives who reflect
33 the demographic diversity of California.

34 128500. There is hereby established in the State Treasury the
35 Vocational Nurse Education Fund. All money in the fund shall be
36 used for the purposes specified in the California Vocational Nurse
37 Education Program established pursuant to this article. This fund

- 1 *shall receive money collected pursuant to subdivision (d) of*
- 2 *Section 2895 of the Business and Professions Code.*
